Incan Gold (co-designed by Alan R. Moon, designer of *Ticket to Ride*) is a quick, fun game of bluff and daring in which explorers push their luck while exploring an old Incan temple in search of gold and treasure. In each round, you decide whether to delve deeper into the temple, adding to your riches, or escape with the share you've acquired so far.

Every time an explorer braves new territory, more gems and dangers appear and can cause you to lose everything. Is it worth the risk? You decide. But if you leave, those who remain may acquire a bigger share of each stash of jewels yet to be found.

After five rounds of exploration, whoever has the most treasure is the ultimate explorer and the winner!

"This is an excellent game, worthy of nearly every collection. Gamers will like it as a nice, quick-paced and exciting alternative...Families will enjoy its simple rules, fun theme, and light-thinking, turn-to-turn excitement. ...This game is downright great, and I highly recommend it."
